---

Rafael and Gary,

Mr. Bergner who represents NORCO has notified Gloria Moran that operations under the two AOC's for the Falcon Refinery will be continued soon. Are the two of you still the appropriate contacts for the project?

Initial actions will include performing the approved work plan for the Phase II assessment and removing the contents of the of the above ground storage tanks that are not in use. Prior to initiating any sampling off-site access agreements, for background sampling, will be obtained. Once the tanks are cleaned the "grossly" contaminated soil will be removed.

Please note that I have a new employer and I look forward to working with you in the near future.
